

WARRANTS DONE **RIGHT.** FINALLY.

DO YOU HATE WRITING WARRANTS?

ADMIN INEFFICIENCIES AND OUTDATED PROCESSES ARE COSTING YOU MORE THAN YOU REALIZE! WE CAN HELP YOU KEEP MORE OF YOUR COPS ON THE STREETS.

1 BETTER

Better policing practices demand more of your officers, they need tools to help them be successful, safe and honest. We can help with that.

2 FASTER

More time and money will keep your officers (and more of them) on the streets collaborating in safer environments. We can help with that.

3 STRONGER

Easier and more accurate processes improve confidence and efficiency, ensuring more convictions. We can help with that.

“I wrote my
first warrant in
4 minutes!”

- Payson PD, AZ

WHAT SETS US APART:

Team Workspace

Multiple officers can work together on the same warrant.

Checks & Balances

Jump menu ensures accuracy.

Seamless Review

No more faxes to the court.

RAISING THE BAR FOR CRIME-FIGHTERS

Centurion allows you to raise the bar for crime-fighters with a minimal lift. Set your officers free to complete more thorough and accurate investigations. Technology should make the job easier... now, it does.

EASE OF USE:

On average, officers are able to write and submit a new warrant in less than 10 minutes. Ease of use provides confidence to officers and removes one more barrier for more effective crime fighting.

TEAM COLLABORATION:

Multiple officers can work together on the same warrant at the same time. Many hands make light work to create a less stressful process to improve work environment and team unity.

CHECKS & BALANCES:

Step-by-step prompts and mandatory entry fields keep the process organized. Designed to dynamically apply necessary language for individual warrant construction specific to each case; not the template repository your used to!

SAVE MONEY:

Time is money. Per officer waiting on paper, do the math. **You can't afford NOT to spend that money more wisely to keep more cops on the streets** where they want to be.

EFFECIENCY:

Completely electronic, no need for print and sign or other signature apps. Honest, accurate and up-to-date agency approved language and forms to improve industry standards.

SEAMLESS REVIEW:

Judges can strike items and still approve warrants without repeated submissions. Streamlined review process for the supervisor, attorney and judge makes warrant execution done right. **Finally.**

WARRANTS DONE
RIGHT. FINALLY.

www.centurionwarrants.com

EFFICIENCY

Designed by officers for officers to efficiently write search warrants.

SECURITY

Leveraging technology to combat the rising crime rates with fewer officers.

The mission of Centurion Warrants is to make warrant writing easy and efficient, by setting a standard for all law enforcement agencies across the United States of America. We will absolutely assist you in protecting and defending the Constitution, liberty, and justice for all; one warrant at a time.

BENEFITS to Crime Fighters:

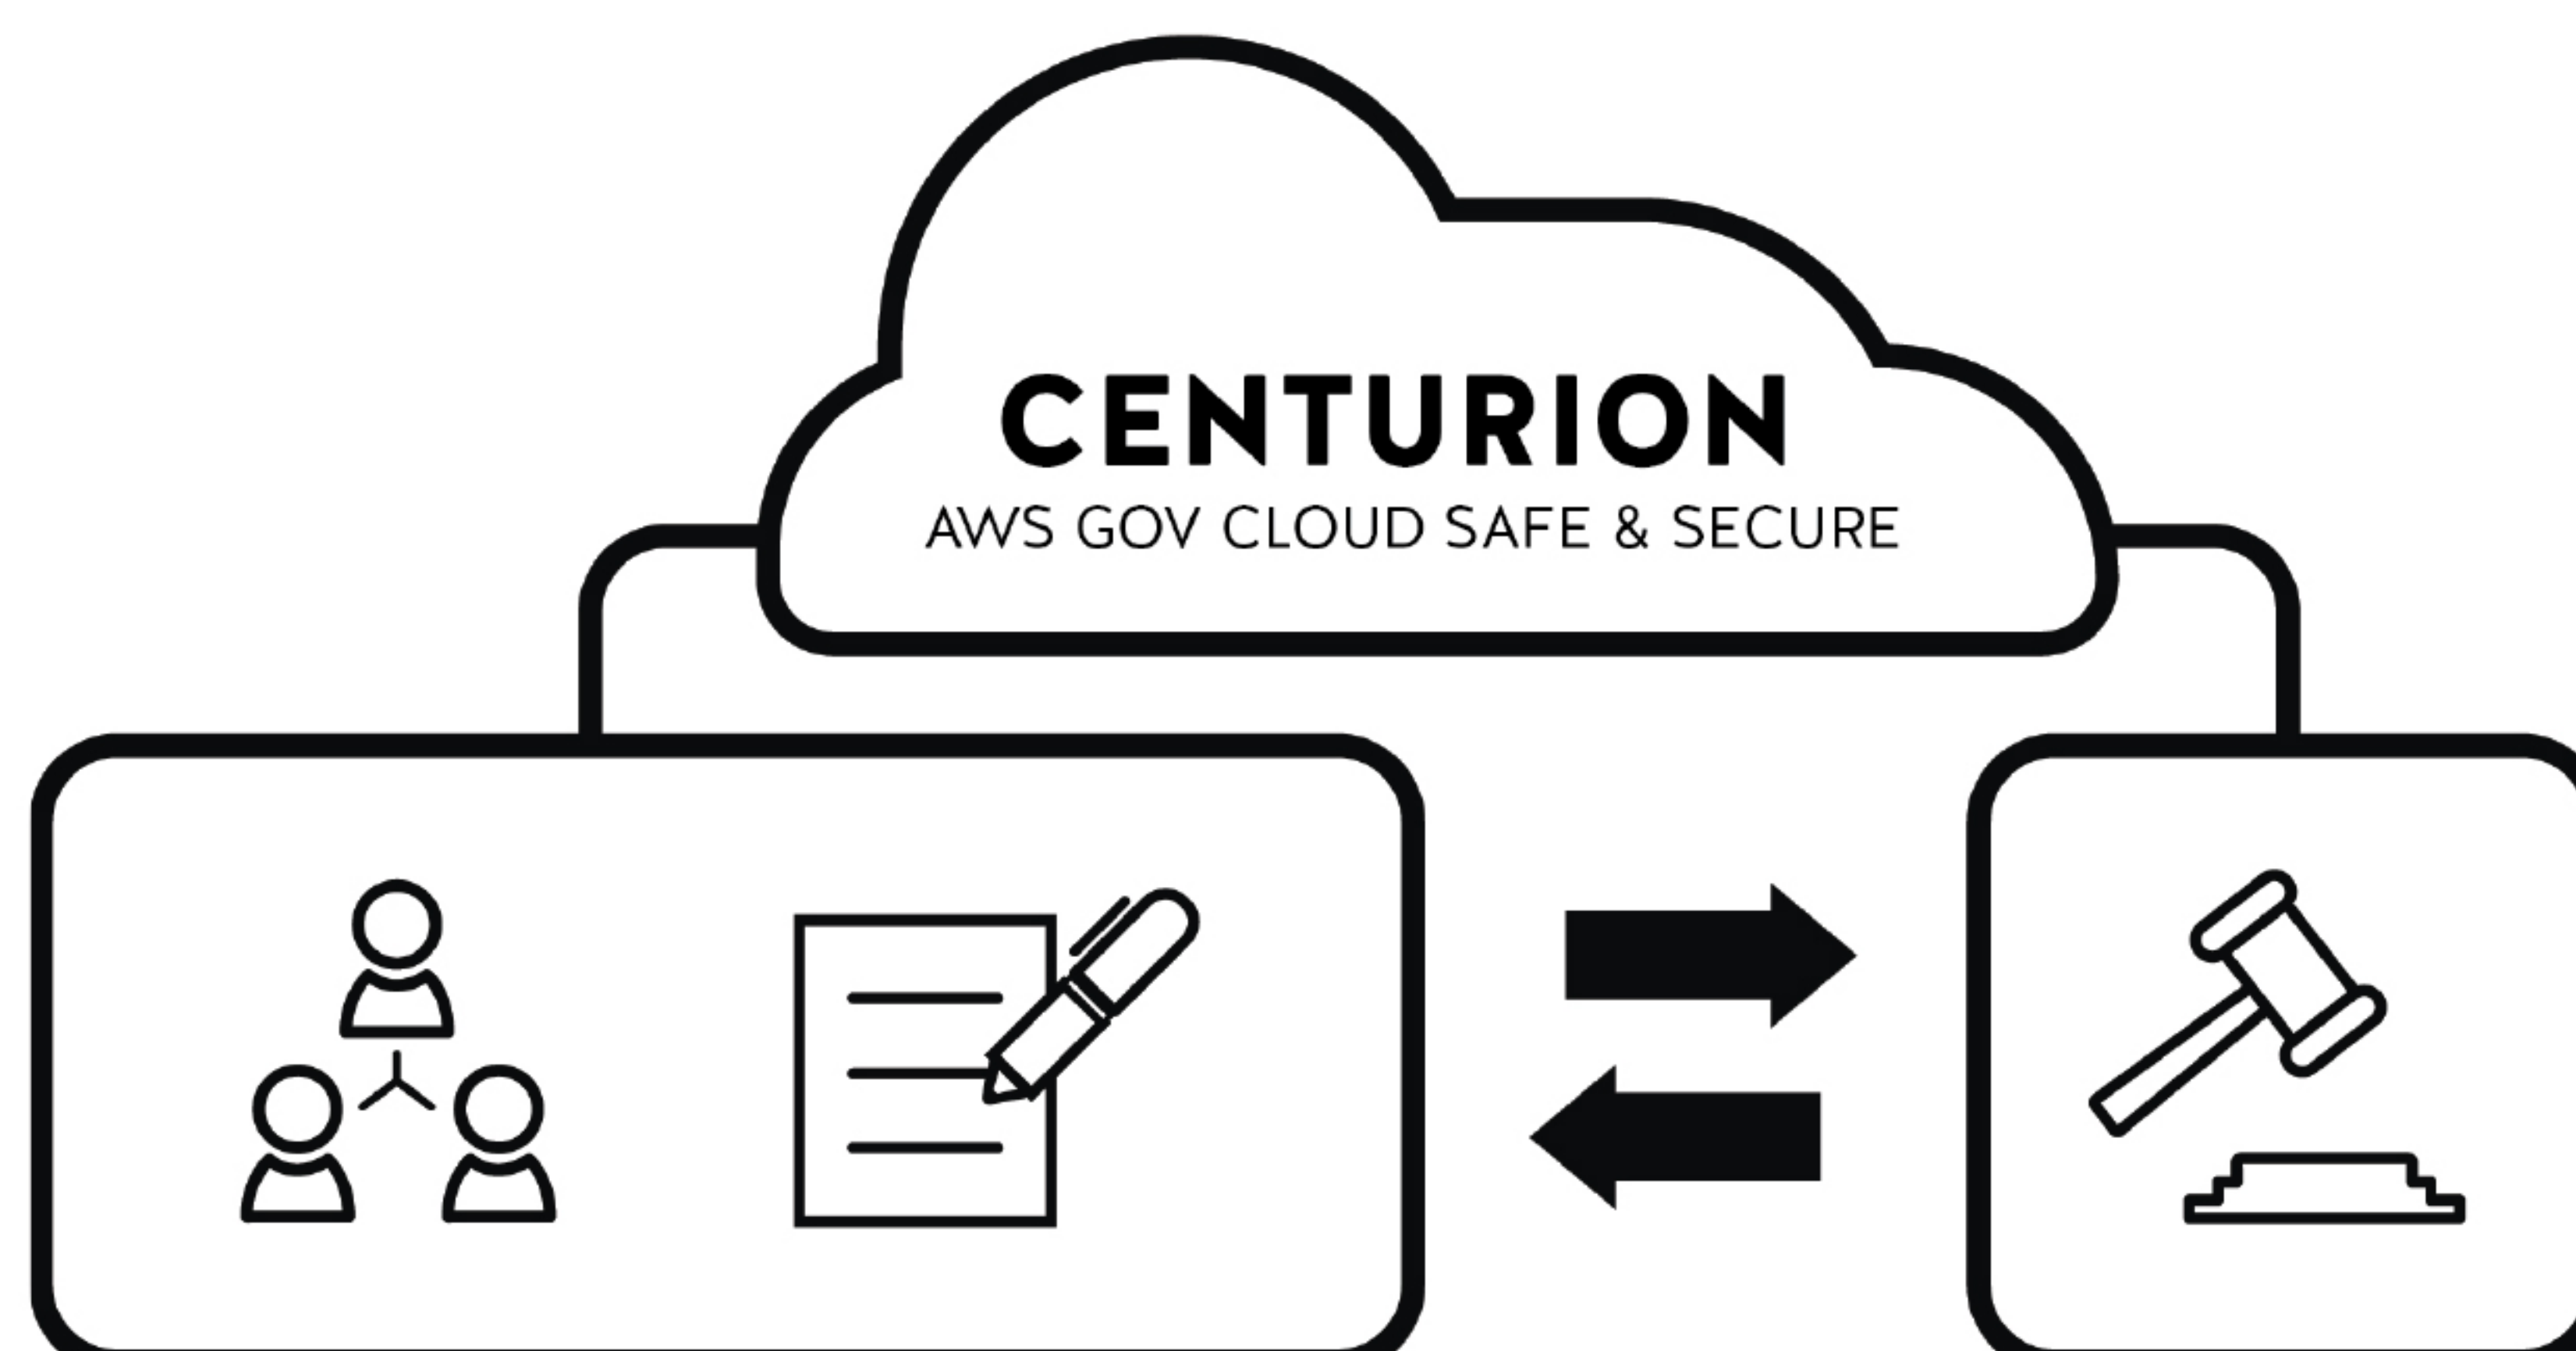

POLICE OFFICERS, SUPERVISORS & DEPARTMENTS

- **WRITE WARRANTS IN 10 MINUTES OR LESS!**
- **Saves time and MONEY.**
- **Team Collaboration**
- **Encrypted information in transit and at rest.**
- **CJIS Compliant**

JUDGES & COURTS

- **Streamline review process.**
- **Ability to strike items and still approve warrants.**
- **Allows for mobility to approve anywhere, anytime.**
- **Multiple users.**

END-TO-END SECURE WARRANT APPROVAL PROCESS

SECURITY

We're serious about data security and will protect your citizens' 4th Amendment Rights, while also protecting the integrity of your police investigations. Centurion Warrants complies with CJIS Standards and uses advanced technology approved to ensure the highest standards of security are met. We have designed the software to exceed CJIS standards to ensure the security of your information. All information is encrypted in transit and at rest and is stored using AWS GovCloud technology.

EFFICIENCY

Our goal is to give law enforcement officers a tool that removes the confusion and difficulty of the warrant writing process so they can write warrants on scene and serve them quickly and correctly. This applies to patrol cops on the beat, investigators called out to scenes, or surveillance officers who need real time warrants. This technology was designed with officers in mind, so all they need to do is enter the incident details. The creation of the warrant is entirely done at the touch of a button on their smartphone, tablet, or computer. The simplicity of the program and the recorded workflow allows for increased legitimacy and transparency for your agency.

SETTING THE STANDARD

The world of policing is moving towards real time crime centers and actionable intelligence, and as such investigations must also keep up with this pace and volume of information. Centurion Warrants is an efficient and secure web-based technology officers can use to write and fully complete standardized search warrants while avoiding the risks of using old templates. The system is designed to dynamically apply necessary language for individual warrant construction specific to each case. By not using old templates, each warrant is validated that the information necessary to complete the warrant exists and there will not be missing information.

PUBLIC TRUST

Centurion allows you to track your search warrants for your agency to show the number of warrants, number of officers waiting on or serving warrants, units writing the warrants, crime types, use of night exceptions, unannounced entries, and sealed warrants. These metrics are critical for an agency to understand how to effectively deploy resources as well as a way to provide data to the public on this particular part of their operation. When agencies are able to easily provide information to the public it helps build trust with the community and a better partnership.
